

Dear FCC,

I need your help. I have a Dlink videophone so that I can call any VRS of my choice but I cannot call people with Sorenson videophones.

Please tell all videophone companies to remove barriers so that we all can call each other easily like pagers, telephones, computers, etc.

Monopoly is an illegal -- AT&T's monopoly was in early 1980.

Thank you!

Sincerely,
James A. Tuttle
